The Sexual Assault/ Intimate Partner Violence Program (SA/IPV)

is a group of specially trained female nurses who provide treatment 24-hours a day, seven days a week to people of any gender, aged 14 and older.

These hospital-based supports are available for individuals who have experienced sexual assault (SA) or intimate partner violence (IPV).

The team will provide options and choices about:

- Medical care and/or police reporting – reporting to police will remain **YOUR** choice
- Medications to prevent infection and pregnancy
- Connections to community resources and counselling services

Services Offered

HSC's SA/IPV Clinic offers a survivor-centred approach, including:

- Medical Assessment and Physical Exam
- Testing and Treatment of Sexually Transmitted Infections
- Pregnancy Testing and Prevention
- Evidence Collection and Documentation
- Safety Planning
- Follow up and Connection to Community Resources
- Cultural & Spiritual Centered care

Accessing Services

Survivor-centred services are available in hospital and in the community.

To access SA/IPV services in Winnipeg, survivors may go to Health Sciences Centre Emergency Department 24/7 and ask to speak to the SA/IPV nurse on duty **OR** may call or visit Clinic Community Health Centre (hours of operation listed below).
