

# Sharpen your nursing skills at **HSC Winnipeg**

## Join our Surgery team at HSC Winnipeg!

We are looking for nurses to work in the Adult and Children's operating room (OR) and post anesthesia care unit (PACU). As a Perioperative Nurse, you will provide care throughout the perioperative period, including assessment, planning, implementation of perioperative nursing interventions and evaluation, using scientific and behavioral practices.

We will train you to our OR and PACU environment. If you are considering a career in Surgery, this is the ideal place to start. At HSC, you will find mentorship, and opportunities to grow your skills and knowledge. Your professional development and well-being will be supported through several ways. We offer an extensive training program with team leaders who are experienced teachers and mentors.

## Grow with us

- Full-time and part-time permanent positions
- A variety of shifts and shift patterns for a flexible work schedule
- Work in a variety of areas, including Adult and Children's surgery
- Comprehensive benefits plan: Health, dental, life insurance, long-term disability, employee assistance plan, and pension plan
- Opportunities for career advancement in clinical and administrative roles
- Ongoing educational and training opportunities

## We want you

- Graduate from an approved School of Nursing required.
- CNA Perioperative Nursing Certification preferred.
- Current related perioperative nursing experience/training required or completion of an accredited program in Operating Room Nursing.
- Scope of practice as documented in the Regulated Health Professions Act.
- Effective communication skills to facilitate decision making and problem solving.
- Ability to apply theoretical knowledge in clinical setting, function in stressful situations.

## Staff testimonials

No matter where you work at HSC, you'll be welcomed into a strong community of staff who care for and support each other.

*Jesse Kirkpatrick, Clinical Resource Nurse, Adult Surgery*

“As the trauma center for Manitoba, HSC Winnipeg offers a wide range of surgical services. It is a challenging and fascinating environment to work in, and our daily routine includes situations some will never experience in their life. Every day, we perform highly complicated cases that involve a lot of planning and expertise from all the team members. We take the time to ensure safe patient care and that our standards of care are met at each step of surgery. It truly takes a dedicated team of exceptional people to do what we do here, and I am proud to work at HSC.”

*Keithly Otchengco, Perioperative Nurse, Adult Surgery*

“To be working in Manitoba's trauma center as an internationally educated nurse is a privilege that not all people are given an opportunity to and that makes me take pride in what I do. I work with a supportive team that values my contributions and work, which is of utmost importance to me. Every day is a learning experience that I'm always looking forward to and I'm excited about future innovations in perioperative nursing as it's constantly evolving.”
