JOIN OUR TEAM

Expand your skills as a Critical Care Nurse.

Why Critical Care?

Diversity

There's something new and exciting to learn every day in a supportive environment!

Teamwork

You'll be a valued member of a strong and collaborative team.

Contribute

Your critical thinking and advanced clinical skills are engaged every time you come to work.

Educational Opportunities

Working in collaboration with the Critical Care Nursing Orientation Program (CCNOP) course, you'll learn from the varied experiences nurses bring with them from other units and centers.

There are numerous local and national educational opportunities for staff to attend.

Tracey Williams, RN / Clinical Resource Nurse MICU

“Our house as we call it – can be very intimidating, but it is also very rewarding. Our team is a family and when we see patients get better, we know our efforts have helped them. I'm proud to say being in the MICU, I've grown into an even better nurse.”
