“

I am thankful for the team that I work with in PICU every day. There are so many brilliant minds working together to provide such a high level of care to our patients. Our team is a caring and compassionate group of people who all genuinely care for our patients and each other. It's an environment filled with support and encouragement and a big reason that I love what I do!

DANIELLE PARRINGTON, RN /  
PEDIATRIC INTENSIVE CARE

**Expand your skills, grow in your career,  
and train on the job in Manitoba's only  
pediatric intensive care unit.**

We also welcome students for practicum placements.
