

HSC Senior Practicum Orientation Manual

Welcome to Health Sciences Centre Winnipeg – a Shared Health Facility

At Health Sciences Centre (HSC) you will be working with a team of dedicated professionals committed to our vision of "Patients First".

We provide healthcare to people from many different cultural and language groups, serving residents of Manitoba, Northwestern Ontario, and Nunavut.

We strive to involve the patient and family in every aspect of care, and to provide a respectful, comforting, and welcoming environment.

Our vision is Patients First:

- Patients are at the center of everything we do
- We see our work through patients' eyes, and do what is right, not necessarily what is easiest
- We involve patients in their care, listening and learning everything we can, and sharing what we know
- Together, we provide the very best possible hospital experience for the people we serve

About Health Sciences Centre Winnipeg

HSC is a Shared Health facility and is Manitoba's hospital. We are a major referral centre for complex health problems requiring expert consultation and sophisticated investigation and management.

HSC is a fully accredited teaching hospital and research centre formally affiliated with the University of Manitoba and Cancer Care Manitoba.

Designated as the trauma centre for Manitoba, HSC is also Manitoba's centre for neurosciences, burns, transplants, and pediatric care.
